RMS & QCS Programs

Resident Management System (RMS)

**Program used by Government QA Personnel to support
Construction Quality Management and Administration.**

Quality Control System (QCS)

**The quality control module of the main RMS program is to be used
by Contractors to interface with the RMS program for both
contract administration and quality control requirements.**

**US Army Corps
of Engineers®**

QCS Incorporated Areas

- 1. Contract Administration (RFI's, Contractor / Subcontractor Key Personnel) (Optional = Payrolls, Insurances, etc.).**
- 2. Finances (Pay Request).**
- 3. Submittals (Submittal Register/Transmittal Log).**
- 4. Schedule (Manually entered or Imported via SDEF - Primavera). NAS Schedules can't be updated in RMS.**
- 5. Quality Control (QC Reports, Prep/Initial Phase Inspection Reports, Deficiency Tracking- QA/QC Punch List Items).**
